### West Mountain Silver Mines.

Stretching due north and south, a distance of some thirty miles, between the Dead Sea of Deseret and Lake Utah, with a flank resting on either, there rises from the surrounding plain a rugged promontory known as the Oquirrh, or more familiarly, West Mountain. The valley of the Jordan stretches along its eastern base, while to the northward and westward the beautiful and fertile Tooele and Rush Valleys nestle close under the shadow of its presence.

The first discovery of mineral in this mountain was made, we believe, about two years since by a lady while riding up one of the cañons on its eastern slope; and the explorations, to which this led, developed the existence of numerous veins, rich in argentiferous ores and unexcelled if indeed equaled, in variety and excellence, by any similar deposits however famous.

Last spring the foot hills, on the western slope nearly opposite, were found to abound in veins of a similar character, and explorations since made have extended the area supposed to be traversed by them, north and south as well as deeper into the mountain, while the developments made upon the lodes themselves prove their value to be far greater than any dared, at first, to anticipate.

Most of the veins, in their outcroppings, showed a strong tendency to galena, which was found by many assays, however, to be rich in silver. Some ledges showed strong indications of copper, combined with the more precious metal in all cases, which have come under our observation.

Furnaces were built last summer to demonstrate the practicability of smelting the ores, and a sufficient amount of bullion was produced to show, that it contained so much silver as to be valueless as lead, but, as yet no adequate means have been employed to separate the two metals.

The Company owning the Great Basin lode have been running a tunnel to strike the vein some thirty feet from the surface, in order to obtain sufficient ore to continue smelting, but they were agreeably surprised on reaching the ledge to find, that the galena had disappeared and given place to rich sulphurets of silver, the vein at that depth being over three feet in width. Another tunnel is being run into the Eureka ledge, but has not reached the vein. In some claims, on which shafts have been sunk, the galena continues to a greater depth, but continues also to improve in quality, and it is believed, that in all cases it will finally merge itself into other forms of silver ore.

The locality of these mines could not have been better for convenience in working, situated as they are less than forty miles from Salt Lake City, where all necessary supplies, except machinery and such as nature offers nearer at hand, can always be obtained over a natural road, which can hardly be improved. The slopes around the valleys, everywhere, are covered with thickets of cedar and pine, while the summits of the mountains and sides of the cañons leading thereto are clothed with an abundance of timber suitable for lumber. The ravines furnish streams of water enough for present uses and the quantity can be increased at pleasure to meet all future necessities. It is a singular example of the wise provision of nature, that on the shores of Salt Lake can be collected in unlimited quantities, the very fluxes necessary to the reduction of these ores, left there by the strongly impregnated waters in the process of evaporation.

We are satisfied beyond doubt, that capital can find no more convenient or profitable place of investment than in

these mines; and, during the coming summer, we hope to see some, possessed of a surplus to so employ, undertake the development of the mineral wealth, which lies even in sight of the Mormon Capital. When this is done, it needs no prophet to safely predict, that a stream of wealth will be drawn from West Mountain unequalled elsewhere and sufficient to enrich thousands. Every branch of industry would be stimulated thereby and, then, farmers in the various valleys round about might look forward to a golden future, of which they had never dreamed.

**OPINION OF SHERMAN.**—A newspaper correspondent writes that a letter from General Sherman is in Washington, which treats incidentally of the war and its support. The General speaks the sentiments of his patriotic heart. He says: "My idea is that every young and middle-aged man ought to be proud of the chance to fight for the integrity of his country. I would like to see all trade and commerce absolutely cease until this conflict is over; and all who can fight, and won't fight, ought to be killed or banished; and those who won't support those who do fight, should be denationalized."

**THE WINTER OF 1864-5.**—No season within our remembrance has been the scene of so much bitter suffering as the present winter. It is not only so in our immediate vicinity, but, one can hardly take a newspaper in his hand without reading an account of death by freezing. It has been a season of sore affliction to the poorer classes, especially in Utah, where wood ranges in price from \$40 to \$20 per cord. In addition to this essential article, everything in the way of provisions and the actual necessities of life are held at prices which were never known since the days of '49-'51 in California.

The mother of a Connecticut soldier who died in the rebel stockade at Andersonville, still awaits his arrival at Annapolis—still scans each baggard skeleton that debarks from the transports—still comes each day with a full suit of clothing for her boy—and when at last she finds him not, she stands wistfully, longingly looking over the waters of the bay, refusing to believe that he has joined that unreturning company who have passed through martyrdom to a patriot's grave.

**OREGON MINES.**—There are at the present time from five to eight hundred men employed in the Oregon mines, exclusive of the Chinese, whose number are said to be some one thousand, besides them there are a few Kanakas. Water is abundant and all hands are busily employed. The mines yield, in the aggregate, \$5 per day to the man.

**DONATION TO THE SOLDIERS.**—A Mrs. Egbert, wife of one of the oil well princes, recently forwarded \$5,000 to provide a Christmas dinner for the soldiers in the Philadelphia hospital. Well done, thou good and faithful servant, enter thou into the joy of thy Lord—say we.

**MISSIONARY.**—One of the California Volunteers who has served in Arizona, and recently mustered out of the service, has remained in that country and opened a school for the Pimo Indians.

**LUCKY.**—An old miner in Grass Valley who has been continually employed in prospecting, has at last struck a quartz ledge, the proceeds of which he has sold for \$30,000.

**PETROLEUM.**—An eminent lecturer in New York, recently stated that the oil wells of the country yield more oil in one day than the whole fishery have in three years.

**SUSPENDED.**—The publication of the *Golden Age* (formerly published at Lewiston, Idaho,) has been suspended for the present, preparatory to its removal to Boise City.

### Loyalty of Mormon Leaders.

The word and the real meaning of the word loyalty, is an adverse visitor to the heart of the hypocrites who control the deluded people of Utah, and it no sooner reaches the heart than it is by them discarded, sneered and ridiculed. The display of the National emblem upon their buildings and flag-staffs is but a mere sham and a detestable mockery of patriotism.

At the same time that the Stars and Stripes float over the heads of these demagogues, they are inwardly praying that our beloved, humane and benign Government may totter and crumble to its foundation, and that its foundation may be shattered to the end of time. The name of our honored, faithful, true and tried President is held in derision, scorn and contempt.

He is denounced by them as a nigger benefactor, a stinking Republican, and is loathed as a contemptible "Rail Splitter."

The currency of the nation is styled by Brigham Young and his horde of iniquitous polygamists, as *trash*, and the term "Lincoln Skins" is by them applied with an expression of disgust.

They not only entertain these sentiments, but they are so imbedded in sin and iniquity that they blantly proclaim these sentiments to the poor deluded people whom they have, through their devilish machinations, lying and intrigue, for so long a time duped and held in tyrannical chains.

The troops stationed at Camp Douglas are cried down as a set of adulterers, and their camp is styled a Pandemonium.

This has been borne for two years patiently and resignedly, and for the simple reason that the VEDETTE during that time remained silent and offered no retaliation for the numerous insults heaped upon the Government and its soldiers at this post; they added insult to insult until at last forbearance ceased to be a virtue.

The VEDETTE has taken a new stand, has become a vindicator of the rights of the general people in Utah, and will, in no instance in the future, fail to give an expose of the treasonable acts of these (so called) prophets, and will shed a ray of light to the people whom they so wilfully deceive. The sermons preached by these leaders, from Brigham Young to the farther one of his tribe, are replete with treason, filth, obscenity and deceit. Language is used in the S. L. City Tabernacle by these heralds of Mormonism, that would hardly be countenanced in a brothel, and yet these lewd expressions find a responsive amen! But thank God there is a new era dawning upon this people, and that it may be truly and justly appreciated by the people of Utah is earnestly to be hoped, by every lover of christianity, civilization and his general country. That the handage may be removed from the eyes of the deluded followers of Brigham Young, and that the wickedness and falsity of his teachings may be revealed to them is truly to be desired. God grant that this day is not far distant.

**GEN. GRANT.**—Sixteen years ago this great General was employed as a compositor in a printing office in Ohio.

Our devil says "he has hopes."

**MRS. JAS. GORDON BENNETT**, of New York, a short time since, gave a splendid dinner to 150 poor children, at her palatial mansion at Arlington Heights.

**ACCOUNTS** from London tell of six cases of starvation in one day. Where are the philanthropies and humanitarians so much talked of in that country.

**JOHN H. GASS**, who was arrested for fraud, is practicing law in Victoria, Vancouver Island, under the name of John H. Gaston.

### Gospel in Utah.

The ranting, hypocritical Mormon leader, Heber C. Kimball, preached a sermon (?) in S. L. City, in Aug. 1857. The following extracts from which we copy from the *Deseret News*:

If this people should consent to dispossess Brother Brigham Young as our Governor, they are just as sure to go to hell as they live, and I know it; for God would forsake them and leave them to themselves, and they would be in worse bondage than the children of Israel ever were.

Supposing this thing all blows over, and they don't come up here; but they begin to flatter us and be friendly, what will be the result? They may flatter us as long as the earth stands, but I never will be subject to one of their damned pusillanimous curses; they may court and flatter us as much as they please, but I never will be subject to them again, no never, do you hear it, (voice, yes) do you think we will submit to them, no never, they have cut the thread themselves.

You are the people who have the privilege to acknowledge Brother Brigham as our Governor, and continue him in office; and you also have the privilege, through your agency, to reject him, if you please, but it will be your condemnation if you do, because he has got the Keys of the Kingdom, and the very moment you object to him, you cut yourself off from the right of the Priesthood.

The reason that I talk as I do is because I don't hold an office in the United States, but this people, some time ago, appointed me Chief Justice of the State of Deseret, and Brother John Taylor and Bishop N. K. Whitney as my associates; you also appointed me Lieutenant-Governor, I always told you I was going to be Lieutenant-Governor. This is a stump speech.

You may take this as some of Heber's wild visions, if you please. I have acknowledged myself as one of the people, and now I say we will take our name, and we will not be false-named any more. We are the Kingdom of God, we are the State of Deseret, and we will have you, Brother Brigham as our Governor just as long as you live, we will not have any other Governor.

We are the people of Deseret, and it is for us to say whether we will have Brother Brigham for our Governor, or those poor miserable devils they are reported to be trying to bring here, you must know they are miserable devils to have to come here under arms, but they shall not rule over us nor come into this Territory. What do you say about it? are you willing as a people, that they should come in here?—you that say they shall not, raise your right hands (all hands raised.) Mr. Gentiles, won't you tell of this, to your co-workers for the devil's kingdom.

After which the Lion of the Mormon Church, Brigham Young, fully endorses his eloquent brother with the remarks below published, which we also clip from the *Deseret News*.

"Br. Heber has been prophesying. You know that I call him my prophet, and he prophesies for me. And now I prophesy that, if this people will live their religion, the God of heaven will fight their battles, bring them off victorious over all their enemies and give to them the kingdom. That is my prophecy. I said Amen to all that Br. Heber prophesied, for it is true; and he may say Amen to all that I prophesy, for it is also true.

"One year ago this very day, and previous to that time, my soul was pained within me. No tongue could tell, it could not be portrayed before the people, the feelings that I had; I could not tell them, and I did not know but that, if I should come out in the presence of the people and try to speak my feelings, they would call me crazy. However, I tried to make the people understand my feelings, but no tongue could tell them, and I actually believe that I would have lived but a little time in this existence, had not God waked up the people. I wanted to take up my valise and go throughout the Territory crying, is there a man in this Territory for God?"

"If you want to know how I felt, I cannot tell you better than by describing my feelings in the way that I am now doing. One day I told a number of the brethren how I felt, as well as I could, and Br. Jedediah M. Grant partook of the Spirit that was in me and walked out like a man—like a giant—and like an angel—and he scattered the

fire of the Almighty among the people. But what was the result, as far as he was concerned? He went beyond his strength, and it cost him his life.

"There has been a great deal said in the lower world about this little handful of people, for you terrify the whole world! Not alone in the United States, but in England, in France, in Italy, in Germany and in every State upon the Eastern continent the people are looking to see what will be the result of the present movements of our Government towards this people. They are looking at the gospel we preach, the course that we take, the influence we are gaining and the numbers we are gathering to us; and they look at the subject not only in a religious point of view, but also in a national capacity.

"Br. Heber said to you, if the time has come, designed by the Lord Almighty for the thread to be cut between this people and the residue of the world, then the Lord will suffer our enemies to clip the thread, and I am with him in that sentiment. But if the time is not come, the Lord will not suffer them to come. If he designs that traffic should continue between us and them, that we shall have the privilege of bringing our imagination, of preaching the gospel and saying the people, let me tell you that they will not come; God will stop them.

"As for myself, I would just as soon this was the time as any other. If it is the time for the thread, in a national capacity, to be severed, let it be severed. Amen to it. But I will tell you what I have concluded, when we talk of gold, of silver, of riches, of the comforts of this world, with me it is the kingdom of God, or nothing; with us it must be the kingdom of God, or nothing. We are not to be overthrown.

"Cannot this kingdom be overthrown? No. They might as well try to obliterate the sun. And I should suppose that the experience of twenty six years would have proven to the wicked that it could not be overthrown, but it only wakes them up to anger and stirs them up to be more diligent in their opposition to the righteous. They have been trying to break up this people and destroy their organization, ever since we became a church, and every time they try, their oppression forces us into greater note, they increase our numbers and strengthen us in faith and in the knowledge and power of God, and how long must they live before they can learn that such has been and invariably will be the result? They will learn it when they get into hell, and never before; never till they get into the spirit world, and then they will see that they have all the time been fighting against God and never till then will they learn it. You cannot teach them anything.

"There are thousands and millions in the United States, and in the world, whose hearts are like an aspen leaf because of this little handful of people in Utah. Pity them, for they know not whom they are fighting against; they know not their destiny.

"This army that is reported to be coming to this place know no more about you and me than you know about the interior of China; they go because they are sent. If they knew our real character, the soldiers themselves would turn round and tell the officers to go to hell; they would take a stampede, and if their officers urged them to come and fight this people, they would turn round upon them, or tell them to do it themselves.

"Now do not feel angry. Are not they to be pitied? Yes. Are you to be pitied? Yes, if you forsake God, or your religion. The Saints need to be pitied for nothing, but for forsaking their religion. Be careful that you do not get darkness into your minds.

"May God bless you.—Amen."

## Local Matters.

NOTWITHSTANDING the wise (?) sayings of the "Lion," gold, silver, copper, and the minerals of the earth, are daily being discovered in this vicinity. New ledges are constantly being developed. Rush Valley and Bingham Cañon will shine forth next Spring as among the richest mining localities.

THE poor people of S. L. City are suffering this winter. There is scarcely a day passes, but two or three visit our Camp begging for bread, and even for the chips at the wood piles. Would it not be well for "The Powers" to open the Tithing Bins and exercise a little charity toward these sufferers.

CURIOUS weather this. Rain, sleet and all the essentials for wet feet and dirty clothes during the day, and snow with a general "blow out" and a hard freeze at night. A very settled climate truly.

**RATHER SHABBY.**—The Portland Oregonian says:

The Sheriff of a mining county in Idaho was lately married under rather singular circumstances. He attended a ball, where he met a young lady who had just arrived across the plains, asked her to have him the first dance, and was married the same evening and started off on a bridal tour soon after. All this is not so singular as the fact that during his absence on the honeymoon trip there arrived from California a lady who had come at his request all the weary distance, to make the best of him as a husband, but who had the good sense to consider herself well rid of such a man, but who certainly deserves a much better husband than she lost.

The following letter was sent by a man to his son at college: "I write to send you some new socks, which your mother has knit by cutting down some of mine. Your mother sends you ten pounds, without my knowledge; and for fear that you would not spend it wisely, I have kept back half, and only send you five. Your mother and I are well, except that your sister has got the measles. I hope you will do honor to my teaching; if you do not, you are a donkey, and your mother and myself are your affectionate parents."

The Empress of the French and the Prince Napoleon, it is said, are friends again, the Empress feeling hurt at the refusal she has met with from the Pope to permit the Prince's child to have the King of Italy as sponsor. All the efforts of the Archbishop of Paris and the Papal Nuncio on behalf of the Empress have failed to influence the Pope, who admires "the goodness and piety of the Empress of the French," but finds it impossible to permit one under the censure of the Church to participate in the administration of a sacrament.

HAY 6 to 7 cents—corn 15 to 20 cents—wood ten to fifteen dollars per cord—groceries and provisions abominable—weather intensely cold—dogs troublesome—cats numerous—business men cross—mills idle—Indians red and spiteful—"high officials" dangerous—legislature foolish. The above is our market report for this day of our lord.—*Black Hawk (Col.) Journal.*

"BRIDGET! Bridget! why don't you bring up the lemonade?" said Mrs. S., on the Fourth of July, from the top of the kitchen stairs. "Why, marm," said Bridget, "you see the ice I put in the lemonade is so hard it has not melted yet, though its stirring it over the fire I've been for the last fifteen minutes or more."

"WHAT! are you drunk again?" "No, my dear, only a little slippery. The fact is, my dear, some scoundrel has been rubbing my boots till they are as smooth as a piece of glass."

At a sale, which took place lately, in the Rue Dronot, Paris, the celebrated hour-glass belonging to Henri II, was sold for 2,000 francs.

"I WISH," said a son of Erin, "I could find the place where men don't die, that I might go and end my days there."
